A Message from Sue Birtles

In this election there is now a realistic chance of Labour achieving a historic win in Queen Edith's. If we do this it is likely that the Lib Dems will lose control of Cambridge City Council for the first time in a generation.

Having spoken to thousands of people in this election I'm pleased to hear so many of you agree that our area is in need of change. I'm also touched that there have been so many good wishes and offers of help. People are clearly pleased that

someone local is finally putting in the effort required to properly challenge our sitting councillors.

I have included in this leaflet many of my ideas to improve Queen Edith's. Over the last few months I have also made a detailed list of the key concerns, street by street, across the whole ward. This means that should I get elected I can hit the ground running and start to do the hard work of fighting your corner.

Many people on the doorstep have asked where Labour stand on a number of wider issues, so I have included more details about our plans for Cambridge

inside and have taken this opportunity to explain my personal motivations for standing.

All I ask is please give everything a read and make an informed decision on Thursday 3rd May. I hope, because of the time and effort that I have put into this campaign, you can see that I am someone who would be an active councillor and someone who will listen then act.

Sue Birtles

p.s. I have included a poster on the back of this leaflet just in case you want one for your window during this election.
